ProtoPie	

Education

- 2019 ● **AS Level**
Highcliffe School
Christchurch, UK
During an exchange year in the UK, I completed my AS levels in the subjects: Mathematics, Programming, Business Economics and Design.
- 2020 ● **Matura**
WFO H. Kunter
Bolzano, Italy
I graduated from the Wirtschaftsfachoberschule H. Kunter in Bolzano with a specialization in Business Informatics. This program provided me with a solid foundation in both business and IT skills.
- 2022 ● **Bachelor**
TU Vienna
Vienna, Austria
I started the bachelors degree in media-informatics at the TU Vienna, where I gained a broad overview of the field. I left the TU before completing my degree to pursue a more suitable program at the Fachhochschule (FH) in St. Pölten.
- NOW ● **Bachelor**
FH St. Pölten
St. Pölten, Austria
I am enrolled in the Creative Computing program at the FH in St. Pölten. This is an English-taught program that teaches both Informatics and Design. My specialization is UI and UX design, which allows me to create engaging and user-friendly interfaces.

Experiences

- 2018 ● **Enrico Giacomuzzi**
Bolzano, Italy - 3 Month Internship
I maintained a comprehensive client database for Orderman Italia. I also designed and implemented an interface that seamlessly integrated Radix, a cloud-based POS system, with Mailchimp, a marketing automation platform.
- 2019 ● **Eos Solutions**
Bolzano, Italy - 2½ Month Internship
I developed and executed a program for two Dobot Magician robots to perform laser engraving of USB drives with customized client initials. This project was showcased at an open house event.
- 2021-2022 ● **Gemeindeverband Bolzano**
Bolzano, Italy - 2 Summer Internships
I collaborated with other employees on frontend and backend development, and adapted to their work culture and software.
- 2022 ● **Gemeindeverband Bolzano**
Bolzano, Italy - 6 Month Work Contract
I was responsible for designing and developing new features for Goffice, a government software solution. I worked on both frontend and backend aspects of the project.
